ADUC

VOL. XVIII. NO. 214.

PADUCAH, KY. MONDAY EVENING. SEPTEMBER 3, 1906.

10 CENTS PER WEEK

GREAT LABOR DAY
PROGRAM BEGINS

Fully Five Thousand Strangers in Paducah.

Crowds Began Coming in Last Night and Streets Were Full Early This Morning.

NO DISORDER IS MANIFEST

Crowds of happy looking people, banners and uniforms, many strange faces, bands playing and horsemen with sashes riding everywhere, betokened a gala day in Paducah today, and nature came to the rescue this morning, shading the sun's glare with a film of cloud, which threatens the afternoon's pleasure but relieves the fears of the boys in jeans, who are marching this morning.

Last night's trains and boats and the trains this morning indicate the biggest Labor-day crowd Paducah ever saw, and it is an orderly crowd. The boys from the shops evidently realize that this is their day and they are going to demonstrate their capacity for rational enjoyment.

It is estimated that there are 5,000 strangers in Paducah today.

This morning the coaches of all incoming passenger trains were filled with passengers coming to Paducah to attend the Labor Day celebration. The Mayfield band arrived to take part in the parade and hundreds of farmers from all points between Paducah, Fulton and Cairo came in this morning.

Rank as Employees.

The Paducah Traction company through protection to itself has adopted a rule on advice of its attorneys, Wheeler, Hughes & Berry, to require a release signature from every person selling tickets for the Goddess of Labor contest on the cars. Workers for their favorite candidates board the cars and sell tickets on the cars, going from one to the other, and their incessant movement subjects them to the same danger as conductors. The company will have every person selling tickets on the cars sign an agreement to release the street car company from any liability for accident.

Business at Standstill.

The Illinois Central shops and manufacturing plants all over the city are idle today because of the local holiday and the fact that Labor Day is being observed can be seen on all sides.

At 7 o'clock tradesmen sat on their porches clad in their Labor Day attire. Some wore white, some blue overalls and others were dressed in regular holiday attire. Every one was prepared to enter the parade.

At the Illinois Central shops there was little activity. The round-house produced the most, a small force being retained for the purpose of getting out engines for the regular runs. In the wood-working department several carpenters were repairing the floor, which had rotted, the road taking advantage of the holiday to make the necessary repairs.

At the post-office, banks and other public institutions, cards were posted announcing the closing of the places on account of the holiday.

At the city hall no court was held and the chain-gang was given a rest. Business houses were opened until the noon hour but this afternoon will bring about a general closing.

The Parade.

Headed by Marshal Jack Sanders, the big parade covering ten blocks started off promptly at 10 o'clock. The Paducah military band first followed by the entire police force, police and fire commissioners, fire department and city officers.

Mayor Yeiser rode in a carriage, with the president and Peter Smith. The county officers followed.

In the second division the candidates for Goddess of Labor came first followed by the machinists' float and

(Continued on Page Four.)

STENSLAND ARRESTED.

Tangier, Sept. 3.—Paul O. Stensland, the Chicago banker, wanted for wrecking the Milwaukee Avenue bank, was arrested here this morning by District Attorney Obe, of Chicago, who pursued Stensland through England and Spain. Stensland fled from Chicago July 12 and went direct to New York. He took the steamer St. Paul for Liverpool and went from there through Spain.

By the consent of the people of Paducah, The Sun has the largest circulation in the city and county. The average for July was 4132 a day.

GIRL ENDS LIFE AS MOTHER DID

Body Found in River Where Woman Was Suicidal Five Years Ago.

St. Louis, Sept. 3.—The body of Bertha Riley, 12 years old, was found today in the Mississippi river near where her mother committed suicide five years ago by drowning. Apparently she had taken her own life. The girl frequently had run away from home, her reason being that her life was unhappy since the death of her mother.

IMAGE LURES CHILD TO DEATH.

Girl Gazes at Reflection in Cistern and Falls Into Water.

Bedford, Ind., Sept. 3.—Bessie Parker, aged 6, today was found drowned in a cistern at her home in five feet of water. The little girl's doll and a half-eaten apple told the tale of her death. She probably was looking at her image in the water and fell in.

FOR DAMAGES

SAM JETT SUES ED CALLAHAN AND JUDGE HARGIS.

They Charged Him With Arson But He Was Acquitted as Soon as His Trial Commenced.

Winchester, Ky., Sept. 3.—Another chapter in the Breathitt county trouble was the filing of a suit here last night by Sam Jett against Judge James Hargis and Ed Callahan, of Breathitt county, and B. F. French, of this city, asking damages in the sum of \$10,000. A year or two ago Jett was indicted in Breathitt county for arson, being charged with burning the house in which he lived, which was burned about sixteen years before the finding of the indictment. Jett was tried this spring and was promptly acquitted. Jett accuses Hargis, Callahan and French with maliciously procuring the indictment hence the suit.

New Naval Training Station.

Washington, D. C. Sept. 3.—Acting Secretary Newberry today approved the plans for the building to be erected at the naval training station at Lake Bluff, 30 miles north of Chicago. The cost of the site and making it ready for the station is about \$250,000. The last congress appropriated \$750,000 and authorized contracts to the extent of \$2,000,000 to complete the station.

FLYING LEAP

SAVED MISS GEORGIA HUSBANDS FROM PROBABLE INJURY.

Delivery Horse Ran Away and Collided With Horse and Buggy This Morning.

But for a flying leap that brought her to the sidewalk on her feet, Miss Georgia Husbands, daughter of Mr. George Husbands, might have been seriously hurt, as the result of a horse, hitched to the delivery wagon of Meyer, Schmid, Clark & company, running away on Third street about 9 o'clock this morning.

Miss Husbands was riding with Mrs. P. H. Riley in a single-seated rig. They had stopped their horse at Third street and Kentucky avenue in front of Bonds' store when a big horse hitched to the wholesale grocery wagon, and driven by T. B. Jones, came tearing south on the street. The shaft of the delivery wagon struck the rear of the buggy, and Miss Husbands, who had not time to alight, gave a leap to the sidewalk.

The delivery horse fortunately fell at the corner, and besides pushing Mrs. Riley's horse several feet did no damage.

The driver said his horse frightened at a banner on the street.

It is better to be penny wise than altogether foolish.

ORDELS SHERIFF
TO MAKE PAYMENT

County Judge Asks For August Road Fund Collection.

Sheriff Says It Is Not the Custom and He Cannot Post His Bonds in Time.

THE CIRCUIT COURT CONVENES.

County Judge R. T. Lightfoot and Sheriff John Ogilvie are at war over the reports of the sheriff to fiscal court, and this afternoon will see a climax to the matter.

The county road fund holds but about \$900 and there are about \$2,000 to be paid out for road expenses. Judge Lightfoot desires to secure funds to settle the indebtedness and verbally ordered the sheriff to appear in court this afternoon and make a settlement. He contends that statutory provisions compel the sheriff to make monthly settlements, but this has not been followed in the past.

County Judge Lightfoot this morning issued a call for a meeting of fiscal court this afternoon at 2 o'clock for the purpose of settling with the sheriff for the month's collections. He stated that the sheriff had to be there and this was as much as he would state.

Sheriff Ogilvie was seen this morning and made the following statement:

"It has not been customary for the sheriff to settle by the month and it works a great inconvenience on me. I can not get my books posted in time to settle when the judge wants me to. I do not object at all to settling, but it is next to an impossibility, and I do not know what I shall do about it."

At the last meeting of fiscal court the county road supervisor was ordered to make a monthly report to the board and this is only another step towards systemizing the methods of county officials.

Sheriff Ogilvie has collected \$16,000 to date, in one month's time.

Circuit Court Convenes.

The regular September term of the regular circuit court began this morning and the first work was that of swearing the sheriff and other officials of the court. The grand jury was empaneled as follows: W. T. Pepper, G. B. Rowland, Dr. W. Whitte, George W. Murphy, J. M. P. Brewer, James T. Hill, H. C. Rennick, H. N. Grief, John Dipple, Henry Scheer, E. B. Richardson, H. C. Rudolph.

After sending the jury to its room, after the formal instructions, the

(Continued on Page Four.)

DUNGEON

IS USED BY COUNTY JAILER FOR THE FIRST TIME.

Two Recalcitrant Prisoners Taught Better Behavior in Its Dark Confinement.

The dungeon recently built under the county jail has proven a success, two unruly prisoners, having been successfully punished by five hours' confinement. They are Wallace Woolf, charged with robbing the mails, and George Fernand, charged with grand larceny, both white.

Five hours each were given the prisoners in the dungeon and it was worse than a turkish bath. They sweated and the light was shut off totally. The experience has caused the prisoners to quiet down and there is no trouble experienced now with them.

NOT NATURAL GAS.

But Dynamite Caused the Explosion and Police are Looking.

Kansas City, Mo., Sept. 3.—At Armourdale, Kas., today a store occupied by Arnold Lieberman, and two dwellings were destroyed as a result of an explosion at first supposed to have been due to leaking natural gas. Two persons were injured. It since developed that the building was not piped for gas and the explosion probably was the result of a dynamite explosion. The police are looking for Lieberman, who has disappeared.

CHICKEN THIEF IS
SHOT IN THE BACK

John Johnson Goes Out With Wagon and is Caught.

Has Served Eight Years for Stealing All the Carpets in Fourth Street House.

LANDS IN THE COUNTY JAIL.

John L. Johnson, colored, ex-convict and wholesale chicken thief, is in the city lockup with his back peppered with bird shot. He is charged with chicken stealing and from indications "Mr. Johnson" will probably duplicate his former stunt of a term in the state penitentiary. Chicken stealing being now a felony.

Early this morning Johnson drove out near Eighth and Ohio streets in quest of chickens. He was well prepared for handling the booty, having secured a one-horse wagon. Residents were awakened by the noise of the chickens and found Johnson trying to load a coop into his wagon.

A shogun was brought into play and Johnson after receiving the contents of one barrel started to run. The next barrel was discharged, but he stepped it and escaped.

His horse and wagon was left, and Patrolmen Scott Ferguson and Thad Terrell were sent out to watch for his return. He came for his vehicle and the police grabbed him and put the handcuffs about his wrists.

"Well, I guess I'm in for 'hit again," Johnson remarked as he was taken to the hall.

Johnson is a tall yellow negro and when seen in the lockup this morning refused to make any statement. Patrolman Scott Ferguson and Detective T. J. Moore this morning "sweated" him and he confessed to having tried to steal the chickens this morning. He had 25 in the wagon when detected and shot.

Mr. Virge Berry, the well-known Illinois Central wood-worker, did the shooting, and 12 shots took effect in Johnson's back. Berry resides on Seventh street between Husbands and Bockman streets. He heard the noise and securing his gun shot.

Johnson has a criminal record—eight years in the penitentiary. He went up from Paducah. He broke into the Leach residence on North Fourth street, now occupied by Mayor Yeiser, and took away a wagon load of carpets and household goods.

Charles Francis Brush, the noted Cleveland electrician, has on his office door: "Office hours, 11:30 to 12." He is there promptly and never works overtime.

WRONG MAN

BROUGHT FROM FULTON ON CHARGE OF MURDER.

James Graham Happened to Be Native of Fulton and Not Paducah—That Saved Him.

The young man arrested at Fulton Saturday suspected of being James Graham, who is alleged to have confessed to a woman of the murder of Claude Bass, was brought to the city Saturday evening by Lieutenant Tom Potter and released. He was not the man wanted.

The prisoner took the arrest coolly and stated that he did not mind the trip as he wanted to come to Paducah for the Labor Day celebration. He bid the police farewell and left for the city.

Patrolman Will Rogers was at the Union Station when Police Lieutenant Tom Potter arrived with his prisoner. Patrolman Rogers is acquainted with the alleged murderer.

One of the remarkable features of the arrest of the wrong man at Fulton are the circumstances surrounding the man's conduct. He was in Paducah during the murder and left immediately afterward. According to Graham's own admission and the statement of his employer he came to Paducah the Saturday night before the murder and left Tuesday night, arriving at Fulton Wednesday morning. The murder was committed Tuesday night. He is about 30 years of age as the man wanted in the case is the same color. His parents, however, reside in Fulton. Whether Graham's mother lives in Fulton or not is not known.

Fair tonight and Sunday followed Sunday by showers in West portion. The highest temperature reached today was 90 and the lowest was 70.

BUSINESS ON 'CHANGE

Products Taken on Contract and Stored in Storehouses.

Chicago, Sept. 3.—Three million bushels of wheat were sent out on special contract on the board of trade today and taken in by storehouses. Other deliveries on steamer contracts were 5,000 bushels of corn, 753,000 bushels of oats, 5,000 tierces of lard, 2,500,000 pounds of ribs and 2,500 barrels of pork.

MISS WILSON MAY GO ON STAGE.

Daughter of Secretary of Agriculture Subject of Report in Washington.

Washington, Sept. 3.—Various reports have been heard in Washington that Miss Flora Wilson, daughter of Secretary Wilson, intended to go upon the stage. She is now in Europe, but expects soon to return to the United States. Secretary Wilson made no comment whatever on the reports.

FATAL FIRE

LOUISVILLE IS VISITED WITH BAD BLAZE ON FOURTH AVE.

Old Caperton Block Between Walnut and Chestnut Streets Catches Fire.

Louisville, Sept. 3.—Harvey Cox, of Bardstown, was burned to death. Harvey White, who roomed with Cox, had a narrow escape from asphyxiation. Capt. Samuel O'Brian, of the No. 9 Engine company, fell from a ladder, 30 feet to the street below, and was picked up unconscious by fellow firemen. Arthur W. Ventres, in fleeing for his life, fell down a flight of steps and suffered a fracture of the right ankle. John Hoffman was burned about the neck. William Stinzel, pianoman of the No. 9 Engine company, was badly cut about the face and hands by pieces of falling glass. These are a few of the incidents connected with the fire which partially gutted the north wing of what is known as the "old Caperton Building," a four-story structure extending on the west side of Fourth avenue from No. 600 to No. 670.

Severe Quakes Felt.

Rio De Janeiro, Sept. 3.—A severe earthquake shock was felt today at Tacna and Arica, Chili. Sixteen slighter shocks followed the first.

SHOOK HER

SHE SAID UNTIL SHE BLEED AT THE NOSE.

Employee of Basket Factory Has Warrant Issued for Her Foreman, John Harvey.

A warrant has been issued for the arrest of John Harvey, a foreman at the Merganser-Horton Basket factory in Mechanicsburg at the instance of Maudie Perdue, a girl employed at the plant. The girl alleges that Harvey grabbed her Saturday and shook her unmercifully until she bled at the nose. The case will come up this afternoon before Magistrate George Boardfoot for trial.

RAIN MARRED PARADE.

Heavy Storm Broke Over Fleet at Oyster Bay.

Oyster Bay, Sept. 3.—Much to the disappointment of thousands of spectators and participants in the great naval spectacle a downpour of rain came this morning at 3 o'clock. A storm broke over the fleet accompanied by a great display of lightning and heavy thunder and a heavy wind, but no damage was reported. The rain ceased at 6 o'clock. There was an occasional drizzle until the hour set for the review.

FROM MAYFIELD
MANY WILL COME

Graves County Expects To Send Two Hundred.

Immigration Convention Promised to Be Great Success on October 4 and 5.

LINING UP THE MERCHANTS.

The citizens of Mayfield and Graves county are waking up in splendid shape to the importance of the immigration convention to be held in Paducah October 4 and 5.

Graves county and Mayfield will probably send a delegation of at least 200 enthusiastic citizens for the immigration movement and the upbuilding of Mayfield and Graves county, and all southwestern Kentucky. Mayor Watts has appointed the following delegates from the city: George Kennedy, T. J. Murphy, J. W. Landum, Dr. J. L. Dismukes, Will Ridgeway, H. C. Seale, J. T. Webb, W. J. Webb, J. C. Robbins, B. F. Key, R. F. Wright, H. J. Wright, J. R. Leeman, John Watts, Gus Thomas, R. O. Heister, R. E. Johnson, W. K. Wall, George Pike, H. J. Moorman, J. L. Sherrill, George Ligon, C. W. Wilson, H. A. Coulter, Art Brand, W. A. Usher, G. T. Fuller, R. T. Davis, J. D. Watson, B. F. Holl-Miles, Scott Cook, Will Brand, Joe Hamlett, Lee Napier.

To Interest Tradesmen.

The Commercial club appointed the following committees to call on various professions and lines of business in the city, and explain to them the importance and value of this immigration movement, and interest them in the convention meeting by placing them to attend and co-operate with the Commercial club in this work and also to arrange with them to attend a general mass meeting to be held the latter part of the month in the interest of the immigration convention. Committees are as follows:

Traveling Men—Stanley Dubois, Emils Lack.

Retail Merchants' Association—H. C. Rhodes, James A. Rudy.

Physicians—Dr. Frank Boyd and Dr. J. B. Coleman.

Road Estate and Insurance—C. B. Jennings and W. F. Hummel.

Electricians—A. J. Becker, Earl Palmer and A. V. Hardy.

Wholesale Grocers—Ed Farley, Will Clark and Pat Lally.

Druggists—J. P. Sleeth, Douglas Buehler, Gus Smith.

Coal dealers, Transfer companies and teamsters—P. D. Fitzpatrick, Tom Barry, C. M. Budd and James O'Donnell.

Bankers—W. F. Paxton, J. B. Bleecker and B. H. Scott.

SOME PLATSE

Accorded Production of Playlet by Bryan's Daughter.

New York, Sept. 3.—Mrs. William Jennings Bryan and her daughter, Grace, and several friends occupied a box at the Union Square theater to witness the rendition of the playlet written by Mrs. Ruth Leavitt, Bryan's eldest daughter. The play received a fair amount of applause.

RAILROAD TIED UP.

All Train Men Strike for Reduction of Hours.

Fort Worth, Tex., Sept. 3.—All engineers, firemen, conductors and brake men on the Texas Southern are on a strike. The road is completely tied up. The men demand a reduction of hours from 12 to 10. No violence is anticipated.

WOMAN MEETS STRANGE DEATH

Dies as Result of Bullet Wound Inflicted in Mysterious Manner.

Marion, Ill., Sept. 3.—Mrs. J. M. Davis died today from the effects of a wound received last evening while going to a neighbor's house. It is unknown how or why she was shot.

S. W. HAGER HERE.

Conferred With His Friends Sunday Night.

S. W. Hager, candidate for the Democratic nomination for governor, was in Paducah yesterday conferring with his friends. He left this morning.

PAID HOODOO STAYS WITH TEAM

Shut Out Again By Score of Six to Nothing.

Vincennes Wins Game and Cairo Loses on Sunday Afternoon—But Still Hopeful.

STANDING IN KITTY LEAGUE.

Team	Standing.	W. L. Pct.
Vincennes	71 48 596
Cairo	65 56 537
Jacksonville	63 55 533
PADUCAH	50 62 475
Danville	55 66 456
Mattoon	49 71 412

Yesterday's Scores.
Cairo 1, Danville 4.
Vincennes 3, Mattoon 0.
Jacksonville 6, Paducah 0.

Where They Play.
Cairo at Mattoon.
Paducah at Vincennes.
Jacksonville at Danville.

Paducah Hard-Locked.
Jacksonville, Sept. 3.—Hard luck pursued the visitors yesterday and although they secured the same number of hits and made only one error were defeated 6 to 0.

The score: R H E
Jacksonville 6 10 1
Paducah 0 10 1
Batteries—Hackett and Lotshaw; Miller and Downing.

Cairo Loses.
Danville, Ill., Sept. 3.—Hatch has been a successful hoodoo all season against Danville, was sent against them by Cairo but the hoodoo was worn out and Danville hit him in critical moments and won a 4 to 1 victory. Cairo hit Ott five times but they did not come at the right time. Both sides played good ball, with only one error each.

The score: R H E
Danville 4 6 1
Cairo 1 5 1
Batteries—Fleming and Ott; Hatch and Quieser.

Vincennes Wins.
Mattoon, Sept. 3.—The Champions broke their unlucky spell Sunday afternoon and won a shut out victory from the locals in an easy manner. Mattison presided for the visitors and his mysterious balls proved the undoing of Mattoon. The visitors also hit well and landed on McCarthy several times and made three runs.

The score: R H E
Vincennes 3 5 1
Mattoon 0 3 2
Batteries—Chenault and Mattison; McCarthy and Johnson.

SATURDAY'S GAMES.
Paducah 3, Jacksonville 3, fourteen innings; tie.
Mattoon 7, Vincennes 6.
Danville 6, Cairo 5.

Jacksonville, Ill., Sept. 3.—The Indians and Belites played a fourteen-inning game Saturday, the game being stopped for darkness.

R H E
Jacksonville 3 8 2
Paducah 3 8 1
Batteries—Akers and Belt, Brahe and Downing.

Cairo Loses.
Danville, Ill., Sept. 3.—Saturday the Rats lost to the locals.

R H E
Danville 2 13 4
Cairo 5 8 1
Batteries—Gurney and Ott, Johnson, Way and Quieser.

Hoosiers Lost Again.
Mattoon, Ill., Sept. 3.—The locals Saturday beat the "Champs" again.

R H E
Mattoon 3 5 3
Vincennes 2 5 5
Batteries—Dowell and Johnson; Perdue and Mattison.

The Kitty league season closes next Sunday, when the Indians play the last game of the series with the Hostlers at Urban park.

"King" Brockett has been drafted from Buffalo by the New York Americans. He and Barney Peltz were two pitcher, developed by Manager Guy Eichenberger. The pair were members of the Cairo team in 1902, Peltz being the first to go higher, Brockett ascending in 1903 when he practically won the pennant for Cairo.—Cairo Bulletin.

WHAT'LL U HAVE?

LITTLE OIL ON YOUR HAIR? OR A DRY MARTINI.

Shavers and Mixers Will Play Ball at Wallace Park This Afternoon.

This afternoon the game of baseball between the Shavers and Mixers will be played. The official score-keeper of the Paducah K. I. T. league team has been engaged to keep tab on the game and has prepared an extra sheet for the event. He will have an assistant to call off the plays, the game bidding fair to be the hottest ever played this season on Wallace park grounds. The following is the lineup:

Mixers.
Mark Brizzolara, The Count, c. f.
Claude Porter, the Candy Kid, 2d base.
Morris Hirschfeld, the Belvedere Mixer, 1. f.
Ray Trotter, King of the Sandwich Isles, s. s.
Cliff Martin, the Bogey Man, 1st base.
Bob Stith, the Pretty Boy, r. f.
Wm. Robinson, Jr., Always Debut, 3rd base.
Chas. Vincent, Smiling Charlie, r. f.
Kenne Murray and Bob Wathen, the Bald Headed Kings of the "Mahogany," Battery.

Reserve Players.
Don P. Martin, Ed Griffith, Percy Craig.

Barbers.
Fatty Crawford, the Boy Wonder, c. f.
Gib Witte, "There With the Girls," 1. f.
Big Grace, She's It, s. s.
Mr. Cooper, King of Hampton Row, 1st base.
Mr. Simpson, the Barber Bismarck, r. f.
Thad Williams, the Minstrel Man, 3rd base.
Frank Just, King of Italy, r. f.
Bookhammer, Booked to Hammer 'em Down, p.
Oscar Nollis, Beau Brummell of 4th street.

Reserve Players.
Charlie Root, G. T. Barter, Palmer house Munsey, Mr. Batlowe.

UMPIRE—Captain Dick Howard.

A Noted Tree.

There is a tree on the Island of Cos, in the Aegean Sea, under whose branches, it is said, both St. Luke and St. Paul rested. It is a huge plane tree, eighteen yards in circumference and over 2,000 years old. It is surrounded by a podium, or raised platform, breast high, doubtless built to support the trunk of the tree after it had become hollow and weak from age. The lower branches are still well preserved, and have been shored up by pieces of antique columns, over the upper ends of which the branches have grown like caps. In consequence of the pressure of their own weight, close by the tree is a solid marble seat, which is said to be the chair of Hippocrates, the father of medicine, and it is supposed that he taught the art of healing from this seat. He was born at Cos, 400 B. C. This gives a clue to age of the celebrated plane tree, which must be considerably more than 2,000 years old. The sultan has the tree carefully guarded against depredations of relic hunters.

Vilegodawickram, "omni Appu and Samalawickram his h Appu are, accordingly, ho India," wanted while the o Paducah.

ARE WE IN AWE

Traditional Web Saved The Christ Child.

Anglo-Saxon Race Took Their Messages as Real Prophecies Inspired by Deity.

ONE MAN MAKES THEM PETS

Since the Sun published an exclusive account of the writing spider, other cities have discovered their presence and the Owensboro Inquirer has the following to say on the subject:

There is a vague superstition in the minds of some people that spiders are utilized by the Deity as an agency to warn people of approaching events by writing in their webs some sentence that foretells the event. This superstition was for a number of years a national one with the Anglo-Saxon race, and the inhabitants of early Scotland. Even in this day, a Scotchman will not, under any conditions kill a spider, because of this old superstition. The sacredness of the spider is believed by many to date back to the time of Christ. There is an old tradition that confirms this belief in a way. When the edict went forth from Herod that all the male children under two years of age should be killed, and when Mary and Joseph were fleeing into Egypt with the Christ child, they stopped one night in a cave. During the night a spider spun his web across the entrance of the cave.

When the soldiers who were looking for the child king appeared at the cave the following morning, they noticed the spider's web and they said that the child and parents could not be there, because if they had entered the cave the web would have been broken. This is the traditional story of how the spider saved the life of Christ and it is probable that the reverence with which the spider is regarded in some countries is due to this tradition. In Scotland the spider is sacred because it inspired King Bruce to try again to take the throne out of the hands of the English.

If there is anything in the old tradition that spiders are prophets, Owensboro is a doomed city. The "writing spider," as he has been known, has made his appearance in several places in the city during the past week, writing at different times different warnings. In the east end of the city the negroes are badly frightened over the words seen in webs of spiders, and several of them have already made arrangements to go to other cities on a visit this week.

Since these sentences were discovered and made public everybody residing in the east end of the city is wondering as to what they mean. The superstitions are afraid that something dreadful will happen, and the negroes cannot be made believe that there is nothing in the words which are seen in the webs.

There is one place in the city where these writing spiders are regarded as pets. This is at the home of Mr. Thomas T. Murphy, on East Third street. For ten years two of the large gold-back species have made their permanent home at Mr. Murphy's. The spiders make their home separately. One of them makes its web in the bush back of the house, while the other resides in the grapevines. These spiders write something every morning.

MAYOR IMPEACHED.

Two Members of New Albany Council Also Removed.

New Albany, Ind., Sept. 3.—William V. Grose, mayor of this city, was impeached and removed from office by the city council this afternoon. John Torgart and Charles W. Poutch, members of the board of public works, were also removed from office. City Clerk Eugene Brisby assumed the office of mayor. Acting Mayor Brisby then appointed a new board of public works. The removal of the mayor and members of the board of public works was the result of an investigation conducted today by the councilmanic committee on supervision and investigation. The acceptance of a new sewerage system just completed at a cost of \$229,000 by the mayor and board of public works is said to have been the cause of the impeachment of the mayor and the removal of the board of public works' members.

UNCLE SAM IS AFTER LAZY HEN

Government Takes Up Problems of Increasing Egg Output.

Washington, Sept. 3.—How can hens be persuaded to lay more eggs? This problem has been submitted by the agricultural department to Robert R. Slocum for solution. He is regarded an expert in poultry affairs.

WHY NOT OWN

Quit paying rent. Let us build the house; you pay rent. Vacant lots in all parts of the city. Nice proposed car extension on Broad to union depot and on Ames streets from 550 to 350 each. Buy now on installment plan while cheap. This is the highest ground in the city. Property is advancing rapidly.

McCracken Real Estate & Mortgage Co.
Lillard D. Sanders, Pres. and Mgr. Phone 765.

and at a handsome salary will attempt to ascertain how the hens of the country may be induced to discharge their duties better. He has gathered together a flock of select chickens and with them has retired for a series of experiments. He will carefully note the effect of various feeds, served dry and moist, hot and cold, upon the egg industry under his observation, and the department is hopeful that when his report is ready he will have much valuable information to impart to farmers and others who raise poultry.

CURE FOR CANCER IS CLAIMED.

Cologne Physician Artificially Produces Disease in Animals.

Berlin, Sept. 3.—Dr. Otto Schmidt, of Cologne, has succeeded in making cultures of the cancer bacillus in a certain mildew forming on plants. When transferred to animals the bacillus caused genuine cancer. In an interview today Dr. Schmidt said:

"I am the first man to prove that cancer can be artificially produced on animals." Dr. Schmidt showed several animals with cancer communicated through injection. He declared that a remedy for cancer now was possible. Since he discovered the bacillus Dr. Schmidt has been experimenting with the remedy, which has given good results, but apparently a cure is possible only when the case is little advanced. Where the ulceration was old, however, the disease was brought to a standstill and the condition of the patient showed great improvement. Dr. Schmidt has not told what his remedy is, but it is not a serum. Physicians maintain a cautious attitude toward the discovery.

GET-RICH-QUICK MAN GIVES UP.

Philadelphia Who Flew From Trial Returns and Surrenders.

Philadelphia, Sept. 3.—William H. Latimer, manager of the Provident Investment Bureau, a "get-rich-quick" concern which was forced out of business eighteen months ago, and who has since been a fugitive from justice, today surrendered. He was held for trial in the federal court. With Frank C. Marrin and Stanley Francis Latimer was indicted charged with conspiracy and using the mails to defraud. Latimer says he traveled through England, France and Canada, and finally became weary of wandering.

BOND COMPANY

Threatens to Bring Proceedings for Release.

The Title Guaranty and Trust company, which has through its attorney, Thomas Harrison, notified each policeman in the city by letter that on September 12th will make application in McCracken county court to be released from their bonds. The policemen and commissioners refused to release the company until the term of the bond has expired.

Casualty No. 1.

Chicago, Ill., Sept. 3.—Edward Apperson was seriously injured yesterday while driving his 90-horsepower Apperson automobile, which was built especially for entry in the great Vanderbilt cup race.

Mr. Apperson has been showing the machine to Chicago friends and left with it in the afternoon to drive to Kokomo, Ind. Near La Porte a tire burst and the auto ran into a ditch. Mr. Apperson was thrown out and when found he was unconscious. He was taken to a hospital in La Porte and a report from there today said he probably would recover.

Torture by Savages.

"Speaking of the torture to which some of the savage tribes in the Philippines subject their captives, reminds me of the intense suffering I endured for three months from inflammation of the kidneys," says W. M. Sherman, Cushing, Me. "Nothing helped me until I tried Electric Bitters three bottles of which completely cured me." Cures Liver Complaint, Dyspepsia, Blood Disorders and Malaria; and restores the weak and nervous to robust health. Guaranteed by all druggists. Price 50c.

Notice to Property Owners on West Jefferson Street.

The board of public works and the city engineer, will meet on Monday afternoon, September 3, at 3 o'clock, to inspect and receive the sidewalks, curb and guttering on West Jefferson street from 19th to 25th streets. Property owners on that street are notified, if they have any protest to offer, to be present at that time and place.

Theatrical Notes

King of Tramps.

"The King of Tramps" is the matinee attraction at the Kentucky theatre. It is a musical comedy, said to be replete with catchy songs and dances and the prospects are for large houses at both performances. The company carries an excellent band and orchestra the former of which was heard on the street his morning.

"Two Orphans"

The title of the play, which comes to the Kentucky next Saturday for matinee and night, will recall familiar faces to the old theater goers and many of them, perhaps, will take advantage of opportunity to renew their acquaintance with that standard drama. The "Two Orphans" with all its old lines and situations will be the attraction.

"Piff Paff Puff" will be on the opening attraction at the Detroit Opera House, Thursday night, Aug. 30. The complete cast is as follows: Henrietta Lee, Denman Maier, Emile Gardner, Charles P. Morrison, Olive Woolford, F. W. Hornby, Lulu Wells, Charles Purcell, Lisle Bloodgood, Lulu McConnell, Harry Watson and the original Pony Ballet with chorus of forty.

William Norris has made the biggest kind of a hit in "The Strangers Life" at the Studebaker Theater, Chicago.

Frisco Adjustments Completed.

The New York underwriters, the Citizens of Missouri and the Hartford have closed their adjusting offices at San Francisco, having completed the settlement of all their individual losses. They had 22 adjusters there, representing the New York underwriters, the Citizens of Missouri and the Hartford and they had a farewell banquet at the Teichman Tavern the last evening of their stay. J. J. Purcell and Norman King will remain to close up the committee's losses outstanding. From Journal of Commerce and Commerce Bulletin.

The first two companies named are represented in Paducah by Abram L. Weil & Co.

Quite Outspoken.

The Northby Clarion never fails to notice the presence of a visitor in the small town, and if he was a person known to fame, the Clarion is quite outspoken. Occasionally comments were so worded as to prove unwittingly keen.

The Rev. Mr. Benson was a man known in the pulpit as a fearless settler-forth of rights and wrongs, but in the domestic circle he displayed, for prudential reasons, considerable reserve of speech and action.

"Dr. Benson is once more among us for a brief season," wrote the chronicler of Northby's social and religious life. "He says and does exactly as he thinks right, without regard to the opinions or belief of others."

"His wife is not with him."

DANGER IN DELAY.

Kidney Diseases Are Too Dangerous for Paducah People to Neglect.

The great danger of kidney trouble is that they get a firm hold before the sufferer recognizes them. Health is gradually undermined. Backache, headache, nervousness, lameness, soreness, lumbago, urinary troubles, dropsy, diabetes and Bright's disease follow in merciless succession. Don't neglect your kidneys. Cure the kidneys with the certain and safe remedy, Doan's Kidney Pills, which has cured people right here in Paducah.

Mrs. M. S. Smith, residing at 323 Jefferson street, says: "I have complained of kidney complaint for a number of years. It dates back to 1884. I suffered with a very distressing weakness of the kidneys which annoyed me day and night. There was often a dull pain across my back over the kidneys. It was these complaints which induced me to get Doan's Kidney Pills. After taking the treatment for a short time I noticed a great change in my condition and the improvement continued steadily. I feel better than I have felt for a long time. Doan's Kidney Pills are an excellent remedy and it is a pleasure for me to recommend them."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

TALK IN ENGLAND CHEAP BUT POOR

Few Use Wires as Compared With Americans.

Some Strange Conditions That For- merly Existed in the Mail Service.

DOZEN REAR ADMIRALS TO GO

Washington, Sept. 3.—Talk would seem to be cheap in England at present, according to information received at the state department—that is, talk by means of mechanical devices for communication between distant points for the English government finds itself compelled to reduce to a great extent the tolls on the telegraph lines which it runs, in order to compete with the privately-owned telephone. A rather curious condition of affairs exists in England from the same cause, that has left her far behind in electric railways as compared to this country; that is, the municipal ownership craze, since the privately-owned telephone is to a great extent used for the transmission of long distance messages which in this country on account of greater personal convenience are naturally sent by telegraph. The English government, indeed, finds increasing difficulty, according to the reports received here, in competing through its own telegraph lines with the telephone—about the only thing which has not yet come under the control of municipal ownership in King Edward's Isle. But even when tempted by low rates the Englishman doesn't seem to care to take advantage of them, for, according to the latest report of the census bureau Americans use the "phone" and the "wire" many times oftener than do the natives of the mother country. All of which would seem to indicate that John Bull has found his government and city business monopolies more or less of a losing game.

Mail Carrying Service.

Competition in bidding for mail contracts, particularly in rural districts, is fast becoming a matter of history, according to postoffice officials. Formerly Uncle Sam found carriers for many of the smaller routes for practically nothing, but in nearly every such case the man who holds the job nowadays receives a more or less adequate compensation. Under the old regime the most extraordinary condition of affairs often existed. For instance, the mail carrier at Lake Charles, La., was under contract for four years to pay to the government the sum of \$50 a year for carrying the mails by steamer a distance of fifty-five miles three times each week, the value to the carrier being found, of course, in the business standing which he derived from the service. This contract has just ended and the new incumbent is to receive a salary of \$2,000 a year for doing just the same work that cost his predecessor \$50 annually. A still more curious instance of the old order is found in the case of West Bridgeton, Vt., where the carrier for going twelve times a week to Woodstock six miles away, received the princely remuneration of one cent each year for his services.

His successor now receives \$100. A former carrier of Freedom, N. H., also distinguished himself by carrying the mails several miles daily for two and a half mills a year. The job now pays \$150. Altogether Uncle Sam's letter carriers are coming into newer and better conditions, to which the automobile as a future means of distribution forms a very attractive if not yet actually existing addition.

Shirt Waist in Army.

The shirt waist man who came, struggled against criticism, and disappeared, is likely to find in the United States army the perpetuation of the custom he attempted to set. Soldiers in shirt waists, that is the gist of the suggestion recently made to the war department by General Leonard Wood, commanding the Philippines division. His suggestion in particular is that the troops of his command be authorized to wear the rank insignia on their shirts under conditions which make it admirable to dispense with the coat. Unfortunately, there is no money available for the purchase of additional insignia, but the war department has authorized the use of khaki chevrons on the shirts, and General Wood will be allowed to regulate the practice of leaving off the service coats, uniformity, however, being insisted upon in the matter in the interest of discipline and neatness.

Dozen Rear Admirals.

The navy is to lose through retirement in the next twelve months just an even dozen of its twenty-two rear admirals, among whom will be found Rear Admiral Sigsbee, who was in command of the old Maine at the time of her destruction in the harbor of Havana. The effects of the age limit will not stop with the admirals, either, since with one exception the commandant of every navy yard in the country is to be retired. Fighting Bob Evans, as he is generally known, will be forced to take a back seat in a little less than two years. Nor is the retirement of prominent officers limited to the navy, for on the 15th of September Lieutenant-General Corbin will cease to be the active head of the army, a fact rendered rather more interesting when it is remembered that Lieutenant-generals have been more of the exception than the rule in the United States army and that before long the title will cease to exist.

Rescue of a Merchant.

A prominent merchant of Shreveport, N. Y., J. A. Johnson, says: "Several years ago I contracted a cough which grew worse, until I was hardly able to move around. I coughed constantly and nothing relieved my terrible suffering until I tried Dr. King's New Discovery. Before I had taken half a bottle my cough was much better and in a short time I was entirely cured. I surely believe it saved my life. It will always be my family remedy for colds." Fully guaranteed; 50c and \$1.00 at all druggists. Trial bottle free.

SHE FOUND RELIEF.

If you are troubled with liver complaint and have not received help read this. Mrs. Mary E. Hammond, Moody, Texas: "I was in poor health—liver trouble—for over a year. Doctors did me no good and I tried Herbol, and three bottles cured me. I can't say too much for Herbol, as it is a wonderful liver medicine. I always have it in the house. Publish where you wish."

Sold by all druggists.

The Italians do not seem to feel cold when the sky is blue, no matter how low the temperature. It is only when the sky is overcast and the air humid that they complain of a cold spell.

COTTON IS KING OF OUR EXPORTS

Passes the Four Hundred Mil- lion Mark.

Total Value Exceeds Four Hundred Millions—Nearly Twice Value of Others.

ENGLAND AND CHINA LEADING

Washington, Sept. 3.—Cotton is king in the export record of the United States for the fiscal year just ended. The total value of raw cotton exported for the first time crossed the 400 million dollar line and exceeded by far the value of any other article of merchandise sent out of the country. The exports of breadstuffs of all kinds aggregated but 186 million dollars, those of provisions but 214 millions, and those of iron and steel manufactures but 161 million dollars.

It was not until 1901 that the value of raw cotton exported reached 300 million dollars. The value of the cotton exports had ranged between 200 and 300 millions in most years since 1866, in which year it first crossed the 200 million dollar line.

This growth is due in part to an increase in the quantity exported, but in part also to the advance in price, since the quantity exported in 1906 was about 700 million pounds less than in 1905, but the value 21 million dollars more than in 1905.

The exportation of manufactured cotton was also larger in 1906 than in any earlier year, aggregating practically 53 million dollars, against 50 millions in 1905 and 22 1-2 millions in 1904.

Europe is our principal customer for raw cotton. The United Kingdom took last year 177 million dollars' worth, Germany 101 millions, France 45 millions and Italy about 27 millions, while the other countries of Europe took about 22 million dollars' worth. Japan is also a customer of our raw cotton, but very irregular in the quantity bought, since she only buys largely of American cotton when prices are low, and when prices are high she turns to India and China in years when American prices are high. The value of cotton exported to Japan in the fiscal year 1906 was, in round terms, 8 millions dollars, in 1905, 17 millions, and in 1904 less than 3 millions.

In manufactured cottons, China is by far our largest customer. The total value of all cotton manufactures exported in the fiscal year 1906 was 13 million dollars, of which 30 millions went to China. Practically all of the cotton goods sent to China was in the form of cloth, the total value of cotton goods exported to China in the year 1906 being \$29,641,188, and of other cotton goods \$172,887.

A Scientific Wonder.

The cures that stand to its credit make Bucklen's Arnica Salve a scientific wonder. It cured E. R. Mulford, lecturer for the Patrons of Husbandry, Waynesboro, Pa., of a distressing case of Piles. It heals the worst Burns, Sores, Boils, Ulcers, Cuts, Wounds, Chills and Sore Throat. Only 25c at all druggists.

Close kin are too often just that.

The Western Idea In Advertising—and Its Progress

Ten years ago more than 60 per cent of American Advertising originated within 10 miles of Park Row, New York. Today 60 per cent of American Advertising comes from the Chicago territory.

THE development of commercial supremacy in The West is the natural result of the development of western advertising—commercial aggressiveness—advertising activity.

The Western Spirit—Aggressiveness—backed by facts has built up in Chicago the largest advertising agency in America—Lord & Thomas.

We are willing to take our share of credit for the development of Western Advertisers.

Our business has grown because we have made the businesses of our clients grow.

And because we did our share in building up small Western Advertisers—Eastern Advertisers (great and small) have come to us until today we have an annual business of \$4,000,000.00 and 700 clients (small and large) from all over the country.

Fortunately our volume of business enables us to retain more \$5,000, \$10,000 and \$20,000-a-year brains for the preparation of advertising campaigns than any other three advertising organizations in the country combined.

Our volume of business has also given us the most valuable advertising experience which we compile into our Record of Results.

This Record constitutes the Only Tangible Basis upon which to build an

Advertising Campaign with the most reasonable assurance of success.

The Lord & Thomas Record of Results is a tabulation of actual results—inquiries and sales known positively to have been produced by scores of classifications of selling plans and copy, advertising hundreds of different commodities in all good newspapers and other good media.

We are fortunate in being located in Chicago, because here the Western Spirit is fully in evidence. And here we are more closely in touch with every part of the country than we would be in any other city in the United States. The center of population is within 100 miles of Chicago and it is thus the logical—the actual center of publicity.

We are ready to focus the Spirit of The West—the Brains—the Record of Results and the Organization at our command upon Your Proposition.

One of our representatives is in your city looking after the interests of some of our present clients—every few days. That is why we are advertising in this newspaper—to you—NOW.

A letter, signifying that you will grant us an interview in your office, will not obligate you in any way.

We are issuing a series of small books (cloth bound), covering advertising in all its phases, which we send free to interested advertisers.

PETER PURYEAR,

Notary Public.

My commission expires January 22, 1908.

Daily Thought.

"The man who does things from a sense of duty, rather than from inclination of will, does not often go wrong."

LABOR DAY.

"Blessed is the man, who has found his work."

Thus spoke the seer of the Ray-crofters, but the blasphemous Hubbard has added a new beatitude worthy to be enshrined in memory with the others.

We of this generation repudiate the old doctrine that work is a curse. This day we dedicate to the exaltation of Labor.

Two centuries ago toil was considered degrading. When Captain John Smith, of Jamestown, promulgated his famous edict that he who "will not work, shall not eat" it was considered unique enough to merit preservation in history. Today every town has its vagrant laws, and the man who does not work, be he rich or be he poor, is a creature to be scorned.

We inherited from our Christian ancestors the Christian holiday of Christ's birth, and the celebration of the New Year's advent. Thanksgiving for the safe arrival of the Pilgrim Fathers and the kindly protection of Providence has been our heritage from colonial days. By Independence day we perpetuate the memory of the Revolutionary patriots. All these holidays were observed when we were born, but it remained for this generation to give to Labor its recognition, and not one who toils, whether in the workshop, at the forge, on the farm, in the store or in the office, should forget that in this one principle at least, communism is the cornerstone of our republic—an equitable distribution of toll. The equitableness is fixed by the capacity of the toiler.

Strange, but true, it is, that the educated classes of other centuries scorned work. Yet in this century, the most enlightened of all with the higher learning disseminated beyond the conception of our forefathers, Labor is dignified, and the laborer judged only by the quality of his work.

Union labor has adopted this day as its own, and the idea is significant. Labor Day as a national holiday in America has not been granted a plebian host by a benevolent and patronizing government, but has been designated at the instance of the toilers themselves, the independent, horny-handed suffragists whose strong bodies and healthily developed minds give promise that the republic will live for untold ages while they maintain the virtues that have dignified their calling.

WIDE-AWAKE PAPERS.

Southwestern Kentucky papers are rife with the occasion and advocating the immigration movement instigated by the commercial class. There is no doubt that

QUITE NATURAL.

"How did Miss Wayup happen to marry her coachman?"
"I suppose he drove her to it."

practical suggestions is made by the Mayfield Messenger, which calls on the mayor and county judge to act:

We hope Mayor Watts and County Judge Crossland will appoint quite a number of delegates from Mayfield and Graves county to attend the meeting of the promoters of immigration for Jackson's Purchase which is to be held in Paducah October 4 and 5. This is eminently a worthy movement and during the next year Graves county should get at least 150 new citizens to locate here.

The Hickman Courier urges its Commercial club to take advantage of the opportunity and get Hickman's share of the benefit:

Last week we published a clipping from the Paducah Sun furnished us by the Paducah Commercial club, in which was explained a plan to secure immigrants for Western Kentucky. We think there is no doubt about it being a wise scheme and one which will benefit Hickman and surrounding country as much as anything that could be done. Now there is no reason why our Commercial club should not take hold of this movement and let Hickman get her share of the booty. If the scheme is a good one and we think that it is, why not let's take hold and see what there is in it. We are not going to get anything unless we go after it, and this is a settled fact.

If President Frank Hipp's, of the late Real Estate Trust company, is really dead, he will please rap twice. Otherwise, he needn't rap at all. The rapping will be well attended to.

A Kentucky woman broke the divorce record in Chicago Saturday, getting the decree fifteen minutes after filing her bill. For speedy justice that beats Mayfield.

The mayor of Hoptown put the bill posters at work while she slept, and the peek-a-boo lady on the crescent moon went 'sto total eclipse.

South Carolina has decided to get out of the liquor business.

King Cotton leads the exports.

ORATORICAL PYROTECHNICS OF KENTUCKIANS.

Every Kentuckian is born to the literary purple. His first articulate cry is a dactyl; he prattles in hexameters. We are not often deeply impressed by what Colonel Water-son says; but the way he says it—his verbal pyrotechnics, his lingual chiaroscuro, his sudden swoops and plummetings, the rumbling thunder of his polysyllables, the rippling tinkle of his penults—these delight us perennially. The colonel is a fountain of words, they flow from him with the murmuring gurgle of bottled-in-bond from a Pendennis club jug, the gentle trickle of ice in a julep glass.

A worthy brother Kentuckian, entitled even more than the colonel to the appreciation of the fastidious, is the Honorable Augustus Owsley Stanley, member of congress from Henderson county. Congressman Stanley was endeavoring to picture to his fellow-statesmen the more subtle and recherche qualities of a beverage which is one of the chief commercial products of his own district. "It will," said he, in describing the local brand, "turn an anchorite into a howling dervish, and make a rabbit spit in a bulldog's face."

Now, there is real literature for you. Picture the scene. Was the quality of inspiring reckless daring, of filling with death-defying, fate-scorned courage, ever so concisely, so aptly, so vividly expressed as by picturing the timid, shrinking, and pusillanimous bunny spitting defiantly into the menacing countenance of the fierce and terrible bulldog? Beside this, how inept and futile those clumsy figures of speech with which Homer tried to tell how brave his heroes were, how tame and tautologous Shakespeare's description of the courage-inspiring virtues of sack: "Warming of the blood; which before, cold and settled, left the liver white and pale, which is the badge of pusillanimity and cowardice."

It is no disappointment to our

pleased anticipations to learn that Congressman Stanley is an emeritus professor of belles-lettres in a Kentucky college.

Why is a Kentuckian, in common with most other Southerners, habitually less restrained in the expression of high-pitched emotion than most other folks? Congressman Stanley was denouncing the Tobacco Trust, dwelling especially on its lowering the price which it paid to the Kentucky farmers for their crops. "There was not," said he, "in 1903, in all the world, not in the jungles of India nor on Siberia's frozen plains, in no pest-haunted, penury-gehenna of disease and death yonder cursed hole in the Orient, no Chinese coolie or San Domingo negro, in that fever-infested gehenna of disease and death yonder in Panama, nor on God's footstool anywhere was there a living slave to penury or power so wretched or so poor as the Kentuckian on his native hearth. Still blessed by fertile soil, the sunshine, and the dew, but robbed of nature's abundance and God's goodness by the merciless machinations of this trust."

We have our own opinion of the Tobacco Trust; but somehow we find it difficult to think Kentucky's plight was so bad as all that. Further, Congressman Stanley charged that because of this trust the women of Kentucky were compelled to go to work in the fields:

"The Kentuckian permits not the winds of summer to visit too roughly the face of her whose love has blessed and sanctified his whole existence. And yet, in that fair Southland I have seen a frail girl, God's ministering angel at the holiest altar ever raised to His presence, torn from the home where love has crowned her. I have seen her disenthralled from about her white neck the ivory arms of her babes, and before the aurora had gilded the dawn I have seen her like a beast of burden bowed in the dirt and dust and toil of the fields, driven there by the voracious teeth of want, by the insatiable lust for gold, the remorseless, pitiless, accursed hand of this combine."

But it is hardly fair to Congressman Stanley to quote his rhetorical peroration without giving also the convincing and logical body of documentary evidence with which he arraigned the trust. On the proved iniquities of this trust we shall have much to say later on.—Collier's.

ROOT: OUR ABLEST STATESMAN.

Greatness is an attribute which we apply to any living man with the extremest hesitation. Time plays havoc with most reputations of any period. The word great is bandied about, now as always, with much recklessness. Almost any man in high station will be often decorated with it. If we were to be compelled to select one American in public life of ability so surpassing as to force this word it would be Elihu Root. His career in the public service may not last sufficiently long to stamp his powers conspicuously upon history, but he has shown such force and certainty and grasp in everything he has undertaken that it seems safe to prophesy that the height of his final reputation will be measured only by the extent of the responsibilities thrown upon him. The justice, tact, and helpfulness of his conduct in South America add another proof of his strength, already demonstrated amply to those who have followed closely his accomplishment. In his South American pronouncements, as always, sheer ability is the dominating trait, and there the situation called for a generous and sympathetic note that lent to his words more than usual of that spiritual grace which is the most interesting product of the diplomacy of our day.—From Collier's for September 1, 1906.

Groom and Bride of 70.

Port Worth, Tex., Sept. 3.—Something new in the way of weddings occurred on a Cotton Belt train just as it was entering the city limits of Corsicana today. M. A. Wilkes, Sr., aged 72, of Lawton, and Mrs. M. E. Height, of Hubbard City, aged 70 years, were married. The aged couple met aboard the train, and the groom having previously obtained the license, justice of the peace performed the ceremony.

MANY CHURCHES
OPEN YESTERDAYRegular Pastors Returning
From Vacations.New Minister Is Heard at Second
Baptist Church Sunday—No
One Is Called.

REV. NEWELL ON GAMBLING

Many churches that were closed for the summer opened yesterday the regular pastors returning from their vacations, refreshed and their congregations keen to enjoy once more the weekly services. Only the First Presbyterian and the First Baptist, besides those without pastors are still dark. The Rev. W. E. Cave is still suffering somewhat from his sickness of two months ago, and the Rev. Calvin Thompson, of the First Baptist church, is detained in Denver by an accident to his little son.

At Grace church, Episcopal, the Rev. D. C. Wright filled his pulpit yesterday morning. He has been spending the summer visiting in Ohio.

At the First Baptist church the Rev. E. H. Cunningham, of the Second church, preached yesterday to an exceedingly large congregation.

The Rev. L. M. Varble, of West Port Ky., preached at the Mechanicsburg Christian church yesterday.

The Rev. T. J. Newell continued his series of practical sermons at the Broadway Methodist church last night by speaking about gambling.

The Rev. Peter Field filled the pulpit at the Third street Methodist church.

The Rev. William Bourquin, pastor of the German Evangelical church, preached in the English language yesterday, his morning subject being, "Day by Day," and his evening subject, "Life Without Care."

At the German Lutheran church the Rev. A. C. Hiten preached in English and German.

Second Baptist.

The Rev. Setzer, from near Louisville, filled the pulpit at the Second Baptist church yesterday morning and evening and he made a good impression. No pastor will be selected until a business meeting, which will probably be held the latter part of this month. In the meantime several ministers will be invited to come here and preach trial sermons and then the committee will make their selection and submit it to the members of the church.

ESCAPE

OF CLAUDE MATHIS FROM OFFICERS WAS SENSATION.

Cost His His Shirt But Liberty Was
Valuable to Him Just Then
and He Ran.

Claude Mathis, colored, accused of grand larceny, made a sensational "get away" from Deputy Sheriffs Gus Rogers and Hume Ogilvie Saturday afternoon, leaving his hat and shirt in the hands of the former. He ran like a deer and completely outstripped the officers who followed for some distance. The race attracted a great deal of attention and excitement because of the condition of the fugitive.

Mathis is accused of walking into the residence of Patrolman William Rogers Saturday morning and taking a fine gold watch from the mantle. The fact was reported to the police and a description of the negro secured. The police were looking for him, and while serving summons on Sixteenth street, between Harrison and Clay streets, the deputies came across Mathis sitting on a barrel in front of a new frame house. He had been employed there and was waiting for the paymaster.

Deputy Sheriff Rogers approached and began to pump the negro. His description fitted that of the thief and when the officer concluded he was the right negro the negro had made up his mind that the officer was after him.

Mathis started to run. Rogers grabbed for him and caught his shirt. The shirt was "peeled off" and Mathis' hat came with it. The negro then struck out for dear life dodging here and there to escape possible bullets from the deputy sheriff's gun. The officers had no guns, but Deputy Sheriff Hume Ogilvie joined in the chase and it was lively while it lasted.

Mathis escaped into the woods.
Mr. Joseph A. Miller and daughter, Jo, left today for St. Vincent, Ky., where Miss Miller will enter school.GREAT LABOR DAY
PROGRAM BEGINS

(Continued From Page One.)

union, numbering 27. All the men were in smart white dress. The carmen followed with 50 in line and headed by the Rev. Peter Fields. Thirty-five Leatherworkers were in line after the Machinists and they were followed by the Lusterine soap float and the Pittsburg coal company's wagons. The ship carpenters, numbering 44, followed then the caulkers and joiners with 12 in line. The painters and decorators in white uniforms had 26. The cigarmakers 11, tinner 6, and the Home Telephone company followed with two floats of instruments. The electrical workers' band followed by that local, numbering 37, followed.

The boiler-makers float had actual work of boiler-making going on and 24 were in line. The blacksmiths and helpers also had a float showing their work and had 20 in line. The retail clerks followed by the barbers completed the parade.

The Mayfield band in white duck uniforms was the recipient of many compliments for its playing and appearance along the line of march.

The line of march was:

North on Fourth to Monroe, west on Monroe to Fifth, south on Fifth to Adams, east on Adams to Third, north on Third to Kentucky, east on Kentucky to First, north on First to Broadway, west on Broadway to Ninth, countermarch to Fourth and Broadway and disband.

This Afternoon.

This afternoon the celebration will be continued at the park under the direction of the Central Labor union. The day will be given over to enjoyment, various kinds of contests having been arranged between the unions.

A vigorous contest for Goddess of Labor is on between Miss Edna Buekey, candidate of the Machinists' union; Miss Mattie Love Prince, candidate of the Carpenters' union, and Miss Geraldine Gipson candidate of the Carpenters' union. Tickets will be sold all afternoon and the voting will continue until tonight, when the ballots will be counted. Miss Nellie Hotchkiss is the Goddess of Labor this year.

DEATHS OF A DAY

Ben Beyer.

This morning at 1 o'clock Ben Beyer, aged 26, died at his home about 2 miles out on the Blandville road, of typhoid fever, after an illness of nine weeks. He was unmarried and leaves a mother, Mrs. U. Beyer, and three brothers and three sisters. The funeral service will be conducted by the Rev. William Bourquin at the family residence tomorrow afternoon. The burial will be in Oak Grove cemetery.

Anderson Holland.

Mr. Anderson Holland, 55 years old, a prominent resident of Calvert City, died Saturday afternoon late of blood poisoning after a lingering illness. A small needle caused his death. He stuck a needle in one of his toes several weeks ago and blood poisoning set in. The foot swelled and grew worse and the disease spread until beyond the control of physicians. He was well known in Calvert City.

THORN MAY KILL RICH WOMAN.

Hebess of Chicago Man Lies Dangerously Ill in McKeesport, Pa.

Pittsburg, Sept. 3.—Mrs. Jane Austin, of McKeesport, who a few years ago inherited \$500,000 from her father in Chicago, is dangerously ill at her home of blood poisoning, caused by a wound made in her foot by a thorn. Before Mrs. Austin came into her inheritance she made her living by doing washing, and at the time of her good fortune was in extreme poverty. She had not heard from her father for forty years.

Wash often, wear long.

TO SAY BY SPELLING REFORM.

New York Officials Say Change Would Mean Millions to City.

New York, Sept. 3.—Edward B. Shallow, acting city superintendent of schools, has figured it out that New York City could gain \$120,000,000 in eight years by adopting simple spelling in the schools. His argument is that spelling as taught at present consumes two years of the time spent by every pupil in the schools. This, he says, is wasted, and might be done away with if the reform were adopted. It costs the city \$42.44 to keep a child in school a year, or \$84.88 for the two years which Mr. Shallow thinks might be dropped. With about 500,000 pupils in attendance, the saving in eight years would be \$42,000,000. If the children should spend this time in earning money putting the average wage at \$3 a week, they would earn \$78,000,000. Adding these totals, Mr. Shallow shows how the reform would net \$120,000,000 in eight years.

Within the three years dating from November next, the Canadian government will have to pay off \$100,000,000 maturing bonds.

YOU DON'T HAVE TO WAIT
Kerry does make you feel better. Tan-Pan keeps your whole 'sides right. Sold on the water-bark plan everywhere. Price 25c.

An Assistant of Nature.

One of the most interesting things of this day of interesting things is the great success being achieved by osteopathy.

There is hardly a day that some cure which is deserving of attracting much attention, is not made by this new science, and the more it is studied, and the better it is known, the easier it is to see why it is so.

Osteopathy merely aids nature to cure. It is a system of healing built upon demonstrable facts.

It discovers the cause of disease, and treats it by scientific manipulations in order to correct disorders and bring about a natural condition. Nearly all diseases yield to the treatment, and the diseases local to Paducah do so most readily.

In rheumatism, liver and bowel, or stomach troubles, chronic headaches, tired-out, run-down conditions, nervousness, its success has been very marked.

I should like to have you call to discuss your particular case at any time, and not only will I tell you frankly what osteopathy will do for you, but refer you to well-known Paducah people whom it has done much for.

Office 518 Broadway, Upstairs.

Non-Destructible

SCHOOL SUITS

Just a week from today the school bell will ring and the boys will be off for another year of hard wear and tear on their clo'ing. If satisfaction is to be given there can be no shoddy goods, no slip shod workmanship on boys' school clothes, and no one knows this better than we do. So we have laid in a large stock of the best and handsomest wear-resisting clothes to be found. The pants are made to give service and are warranted not to rip. They will wear out, of course, but that need not worry you, because each suit has two pairs of pants. This is a happy idea of the makers of NON-DESTRUCTIBLE SCHOOL CLOTHES and you can't get them any place else in town. Come in tomorrow and see what immense value can be gotten for from

tending the tri-state fair here.

FINE OFFICE

SECURED BY ILLINOIS CENTRAL
IN PALMER HOUSE.

Will Spend Five Thousand Dollars
Fitting it Up—One of Best in
the South.

The I. C. Railroad company is to
have one of the finest city ticket of-
fices in the south and an appropri-
ation of \$5,000 has been made by the
company for fitting it up.
"Yesterday we closed a deal, by
which my company leased the corner
of The Palmer House, and we will
begin fitting it up as soon as the ho-
tel company is ready for us," Mr.
John Donovan, agent for the local
Illinois Central, said this morning.
"The finishings will be mahogany
and the best will be secured. We
have leased 20 feet running back
from Broadway to the lobby of the
hotel taking in the present plumbing
shop and barber shop. The hotel
company will work with us and has
altered plans to suit the company."

TEACHERS' ELECTION.
Pupils May Now Select Their Own
Teachers.

Mrs. John J. Dorian's private
school will resume work Monday,
September 10. The course includes
all the English branches, also Latin,
French, Shorthand and Bookkeep-
ing. For information call at corner
Fourth and Adams, Old phone 1478.

Why does the sun burn? Why does
a mosquito sting? Why do we feel
unhappy in the Good Old Summer
Time? Answer: we don't. We use De
Witt's Witch Hazel Salve, and these
little ills don't bother us. Learn to
look for the name on the box to get
the genuine. Sold by Lang Bros.

—We handle the best players on
the market; we also handle a cheap
player. See us for price. D. H.
Caldwin & company, 530 Broadw.

Among the adulterants of
the India. Vanila, the mov-
ing forces of all civilization, are found
in the south in quantity, proximity
and cheapness of production on a
scale not elsewhere duplicated in the
world. Of coal the south has nearly
three times as much in quantity as
Great Britain, Germany and Pennsylv-
ania combined. Of iron ore the
south has certainly one-half of all the
known ore of the entire country.
Measure if you can the limitless pos-
sibilities, the vast wealth of the future
of this section.

BAITED HUSBAND WITH GOOD WINE

Then Abducted Her Child Before His Eyes.

Mrs. Catherine Reed Tells How She Got Possession of Lloyd Reed, Jr., Her Youngest.

JUST CAUGHT MOVING TRAIN

Erie, Pa., Sept. 3.—Society in Erie has been set astir over the sensational abduction of Lloyd Reed, Jr., by his mother, Mrs. Catherine Reed, who made a flying trip from New York to get her son from her millionaire husband, Lloyd G. Reed.

Since the separation of the Reeds, Mrs. Reed has had her two youngest children with her in New York. Lloyd, aged 17, is said to have wanted to go with her, too. The court had already been appealed to and a guardian was appointed to handle the estate, Reed being weak and incompetent to do so.

Reed reached the Lake Shore station just as the train with his wife and child pulled out for New York. He barely missed it, and as it sped on its way back to New York Mrs. Reed related the story of the kidnapping.

Uses Wine as a Bait.

She told of coming to Erie and of registering at the Reed hotel. Then she added:

"Knowing my husband's weakness for wine, I called him up on the telephone and began joking with him. He at first seemingly thought I was some other woman, but when I asked if he wouldn't like to come and have a couple of bottles of wine with me he knew who it was. It wouldn't do to let him know I had come to Erie direct from New York or he might have become suspicious so I told him I had been to a funeral in Cleveland.

"He said he would take the wine, and as an after thought I suggested that he bring Aaron with him. An hour later they were at the hotel and I gave Aaron to understand that he must do exactly as I told him.

"After talking with Mr. Reed for a while, I asked him to go to the lawyer's office with me. I had learned that he wanted certain jewelry which he could only get with my consent, and I determined to play this jewelry against the child. Once in the street, however, circumstances aided me. Mr. Reed suddenly changed his mind about going to the lawyer and said he would go first and get shaved and attend to some other matters.

"In urging him to go with me I had laced my arms around his neck, and this drew a large crowd. Seeing my opportunity, I told Aaron to run for the hotel and I remained with Mr. Reed long enough to make sure the child would get away.

"Then I hastened to the hotel and put the boy in a room where his father would not find him and telephoned for a 'day. It was a simple matter to figure just how long it would be before Mr. Reed got back to his home and after starting the day there I got on a trolley car and went to the house myself.

"The drayman got all the trunks on his vehicle and started away while I remained behind to talk with the housekeeper and make sure she didn't go to the telephone. I would surely have been stopped if she had done so.

"It took me less than a minute to buy my tickets, have my trunks thrown into the baggage car and start for the train. I was not a second too soon, for as I reached the car platform the train began to move."

Inapt Rejoicing.

It was the unvarying custom of the late Dr. O. B. Cheney, president of Bates college, to terminate the exercises at commencement dinner by asking all to join in singing the doxology. On one occasion the late Congressman Nelson Dingley had been set down as the last of the speakers, but he was prevented from attending, and sent a note of excuse, which did not reach the president, who, when Mr. Dingley's name was reached on the list, announced him. After a pause he inquired if the congressman were not present. Being informed that he was not in the room, the venerable president, bethinking himself only of his cherished form of closing, calmly said: "As Congressman Dingley is not present, let us all rise and sing, 'Praise God From Whom All Blessings Flow.'"

Senator Allison Recovers.

Dubuque, Iowa, Sept. 3.—Senator Allison apparently has recovered from his serious illness and is attending the tri-state fair here.

Where there are no unbelievers there is no faith.

NEGROES ON LYNCHING EVIL.

National Body Declares It Has Dire Results for Both Races.

Atlanta, Ga., Sept. 3.—The National Negro Business League today adopted resolutions as to lynching, declaring that the progress and happiness of the two races in the south are so interwoven that whatever helps the one helps the other and whatever retards the progress of the one retards the progress of the other, and that lawless hangings have evil results for both races. The National Negro Banking association was formed, with W. R. Pettiford, of Birmingham, Ala., as president, and J. H. McConico, of Little Rock, Ark., as secretary-treasurer. Booker T. Washington was again elected president of the league. Topeka, Kan., will be the next meeting place.

THROW SWITCH

TO STOP FAST TRAIN WHEN THE ARE LATE.

Special Agent of Illinois Central Railroad Is Investigating Conduct.

Persons residing between Paducah and Cairo who fall to make the train in time to board it at the depot have been in the habit of throwing the switch at the southeast line junction at Jackson street in the Paducah Illinois Central yards, and Special Agent J. D. King is in the city looking after the matter. He will prosecute the persons if he can learn who they are.

The train to Cairo which connects with the fast Chicago flyer, is scheduled to leave here at 6:10 o'clock, and often passengers do not get to the depot in time. Several got "next" to the switch and threw it against the train. Slow orders are observed and there is not any danger of an accident, but delay is occasioned in stopping the train and throwing the switch right.

Because of the frequency of the occurrence the trainmaster has assigned a regular switchman to the place every evening to see that the switch is thrown properly. He is Mr. F. Morthland, and since the action of the trainmaster no delays have been occasioned.

Special Agent J. D. King went down the Cairo extension this morning to investigate the matter. It is said that Kevil residents are largely responsible for the delays, several having been recognized.

Money Market a Danger Signal.

Speculators on the stock exchange who have been recklessly buying and bidding up stocks seem to have a child-like confidence that money from some quarter will be forthcoming to finance their operations even while an enormous crop movement is in progress. This view may possibly be correct, but it never has been in the past and the sources from which money can be obtained are no different or more plentiful than in years gone by. In all probability this country will get many millions of dollars from Europe within the next six or seven months. Indeed, it will have to get a large amount in order to conduct its legitimate business upon a satisfactory basis, but we doubt very much whether the supply for some time to come will be sufficient to meet the demands of a rampant speculation. In Wall street.—Wall Street Summary.

Unappreciated Encouragement.

One very slippery day "Mark Twain" in his sealskin overcoat was walking down Main street in Hartford. A portly citizen whom he knew by sight fell just in front of him with a thud. Looking calmly down, with that shadowy smile which only stirred his heavy mustache "Mark Twain" drawled: "You'll have to hit it again and a little harder. Then I think you'll break through." All appreciation of humor had been so well shaken out of the fat man that with a purple face he told Mr. Clements to go where there is always a successful corner on ice and snow. Mr. Clements walked on, saying sadly: "That is the very last time that I'll ever try to encourage a man to get up when he is down on ice."

Possibilities of the South.

The Manufacturers' Record of Baltimore says:

"Coal and iron, the foundations of the world's chief industries, the bases of the vast wealth of Great Britain, Germany and Pennsylvania, are the moving forces of all civilization, are found in the south in quantity, proximity and cheapness of production on a scale not elsewhere duplicated in the world. Of coal the south has nearly three times as much in quantity as Great Britain, Germany and Pennsylvania combined. Of iron ore the south has certainly one-half of all the known ore of the entire country. Measure if you can the limitless possibilities, the vast wealth of the future of this section."

LABOR IS SCARCE IN THIS COUNTY

Dollar and a Quarter a Day and Board Offered.

Seems to Be No Inducement to Laborers to Work on Farms—Beats City Price.

EXPECT TO GET UP CROP

American farmers have gone back to doing their own work. They combine the function of directing their hands with actual labor themselves. But they are not doing their own work from hard times—except in securing labor. The American farmer, his son, and wife, from the scarcity of labor, have to get out into the field, if they would save the bumper crops which nature has produced this fall.

Not only in the great grain fields of the west is this scarcity of labor causing the "boss" to work as well as the laborer. In McCracken county a dollar and a half a day and board will not secure labor on some of the farms. In the city, day laborers get a dollar and a quarter a day and have to provide board for themselves.

This scarcity of labor vastly has stimulated the sale of labor-saving farm machinery. It is so in raking hay, in harvesting corn and wheat.

Somehow, though, when the fall has past, it usually has been the case that the crops have been harvested in full, and despite the unfulfilled demand for labor now, the crops of this fall doubtless will be harvested.

ILLINOIS CENTRAL R. R. EXCURSION BULLETIN.

Savings of French Peasants.

One of the wonders of the industrial world has always been the phenomenal thrift of the French peasantry. Since 1880 the depositors in French savings banks have subscribed and paid for \$40,000,000 worth of government bonds. Since 1891 these saving bank depositors have also subscribed for \$104,000,000 in bonds issued by the French colonies and protectorates, nearly \$200,000,000 in city of Paris bonds and \$185,000,000 in other municipal bonds and in mortgages and loan companies. The number of depositors has increased from 5,000,000 to 7,000,000. It is obvious that this wonderful demonstration of thrift is out of keeping with a popular notion of France as a gay and improvident nation. Indianapolis Star.

An Insured Finger.

Rigo, the gypsy fiddler who eloped with the Princess Chimay, formerly Miss Ward, of Detroit, is now playing in the east. He has a finger insured for \$25,000 and says he took out the policy because "a burned child dreads the fire." He lost a lot of money and some professional reputation by injuring his finger soon after arriving in this country. He tried to play and critics said he was not an artist. He led his orchestra and they accused him of not being able to play. Then he insured his finger, which is now as good as ever. On his arm he bears an elaborately tattooed figure of the Princess Chimay.

A man isn't known so much by the company he keeps as the line of talk he hands out to his neighbors.

STANDARD OIL COUNSEL BALKS.

Ohio Aid of Rockefeller Calls Bryan Speech "Preposterous."

Cleveland, Sept. 3.—Democratic state leaders differ in their views regarding the speech of Mr. Bryan. His advocacy of government ownership of railroads was the subject which caused the most comment. Virgil P. Kline, counsel for John D. Rockefeller and the Standard Oil company in Ohio, who a few months ago declared for Mr. Bryan for president, saying he could not approach the present occupant of the White House when it comes to radicalism, today declared the Nebraskan's speech to be preposterous. Kline's views expressed months ago were taken to mean that the Standard Oil company would back Bryan, but his later opinion tends to disprove that theory.

TUESDAY DOCKET

MAY BE LARGE ONE IN THE POLICE COURT.

No Court Held Today Because It Is a Holiday—Six Cases Will Go Over.

Police Judge E. H. Puryear held no court this morning, and Tuesday the docket will probably be large.

The following arrests have been made since Saturday night: John L. Johnson, colored, chicken stealing; W. H. Patterson, breach of ordinance; William Shearer, breach of peace; George Underwood, drunkenness; Joe McKnight, colored, willful trespass; Mack Boose cruelty to animals.

RIVER NEWS

The hammer and the saw are idle at the ways and drydocks today. Other holidays are not so rigorously observed, but when Labor Day comes there is not a single thing doing.

The river fell .8 in the last 48 hours. The stage is 11.1 feet. The wharfbat will receive freight all day.

Capt. Frank Lyon brought the Speed from Greenville, Miss., to the city to go on the ways for general repairs. It probably will be taken out Wednesday. Capt. Lyon will remain here until the job is completed.

The Savannah arrived from St. Louis Saturday night on the up trip to the Tennessee river.

Government inspectors MacDonald and Green will be here Wednesday to inspect the Russell Lord, Pavonia and Gate City.

The Margaret arrived yesterday and will leave today or the Tennessee river after ties.

The Butteroff did not arrive from Nashville Sunday night as per schedule, but will be here Wednesday for the regular trip to Nashville.

The Charles Turner left today for the Tennessee river after ties.

The Sallito arrived out of the Tennessee river Saturday night on the return trip to St. Louis.

The Russell Lord will leave Wednesday for the White river in Arkansas after ties for the Ayer-Lord Tie company.

The Joe Fowler arrived from Evansville Sunday and left today on time at 1 o'clock for the same point.

The Clyde will arrive out of the Tennessee river tonight and lie over until Wednesday evening when she returns to the same river.

The Henry Harley is expected to arrive from the upper Cumberland river Thursday.

The Dick Fowler had a good passenger trip to Cairo and way points this morning.

NEWS NOTES FROM SUNDAY PAPERS.

The renewal of terrorism on a large scale in Russia has greatly intensified the hostility of the ruling classes against the Jews, who have long been regarded as the brains of the revolution, and, it is believed, has diminished their chances of obtaining more than a nominal enlargement of their rights.

The statement of the New York clearing-house banks for last week shows that the banks hold \$2,869,400 over the legal reserve requirements. This is a decrease of \$1,420,675 as compared with the previous week.

Many Democrats in Washington expressed themselves as emphatically against government ownership of railroads, that section of Mr. Bryan's speech seeming to have met with a rebuff in this party.

The wets won by a majority of over two thousand in the twelve precincts outside of Louisville in which local option elections were held. They carried every precinct by overwhelming majorities.

In his annual report for the season of 1905-6, Col. William V. King, superintendent of the New York Cotton Exchange, figures the crop at 11,233,847 bales, as compared with 13,654,029 bales in 1904-5.

Charles A. Walsh, Iowa member of the Democratic national committee, has resigned in a caustic letter to Chairman Taggart, in which he attacks the members of the executive committee.

By an act of the last legislature, Nashville was given the right to annex certain suburbs. This act went into effect yesterday, and Nashville now has an estimated population of 160,000.

Gov. Hanly yesterday accepted the resignation of Representative Newton W. Gilbert, of the Twelfth Indiana district, who has been appointed a federal judge in the Philippine islands.

The report emanating from the island of Makta relative to a French military expedition to Tripoli, in connection with the frontier dispute with Turkey, is not confirmed in Paris.

The hearing of the case against Prof. Charles H. Frye, of Chicago, who is accused of bigamy by Mrs. Goddard, of Herley, S. D., was continued until September 10.

Charges of discriminating and unjust rates have been filed before the interstate commerce commission.

against a number of the leading railroads of the country.

The plant of the Eureka Refrigerator company, of Indianapolis, was destroyed by fire which started from a torch accidentally dropped by an engineer.

The condition of Private Herbert Crader, who was wounded Friday at Camp Harris, was reported yesterday as being very gratifying to his physicians.

Within fifteen minutes of the time the bill was filed yesterday, Mrs. Kathleen K. Stevenson, a Kentuckian, was granted a divorce in a Chicago court.

A large vote is expected in the biennial election in Arkansas. The Democratic state nominees form the only complete ticket in the field.

Vice President Fairbanks arrived in Denver yesterday en route to Boise, Idaho, where he will attend the irrigation congress.

Official dispatches received at Madrid announce that the strikes in the Santander mining districts are generally ending.

Three hundred butchers went on strike in Baltimore for a nine hour day without reduction in their pay.

IF IT'S A REPUTATION

You are after White's Cream Vermifuge has a world-wide reputation as the best of all worm destroyers, and for its tonic influence on weak and unthrifty children. It improves their digestion and assimilation of their food, strengthens their nervous system and restores them to health and vigor natural to a child. If you want a healthy, happy child get a bottle of White's Cream Vermifuge. Sold by all druggists.

Wurthemberg, Germany, has 487,000 acres of forest, from which its net profit last year was \$2,240,000. The Germans cut the older trees and plant enough young ones to take their places.
